Great Singers Must be "Tobacco Wise"

Tuxedo is the Tobacco Chosen by Opera Stars

MEN who depend upon their voices come to know tobacco as the ordinary smoker never knows it. A sensitive throat or mouth feels the slightest sting, bite or scorch of tobacco.

Tuxedo is the one tobacco which singers, actors, public speakers—all men who guard their throats zealously—can smoke with pleasure and safety.

Tuxedo tobacco cannot sting, bite or irritate the delicate membranes of the mouth or throat.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Tuxedo tobacco has made thousands of men converts to the pipe, because it has made pipe-smoking possible for them. Under the famous "Tuxedo Process" the mild, tender leaves of the highest grade Burley tobacco are so skillfully treated that Tuxedo burns slowly and affords a cool, mild, thoroughly enjoyable pipe smoke.

Leading men in all walks of life—well-known doctors, lawyers, ministers, lecturers, etc.—smoke Tuxedo and testify to its soothing influence on the throat.
